

**2022**

# **Annual Report**

**St. Joseph County**

**45<sup>th</sup> Circuit Court**

**Juvenile Division**

**Family Court**

**August 15<sup>th</sup>, 2023**

# **Mission Statement**

The mission of the St. Joseph County 45<sup>th</sup> Circuit Court, Juvenile Division, Family Branch is to carry out its statutorily defined mandates of providing protection and services to people who are, for many specific reasons, vulnerable and least able to protect themselves.

The Court will use its authority to together strengthen families by offering services and providing consequences to reduce delinquency and child abuse and neglect and promote the development of the best citizens possible.

St. Joseph County Juvenile Division, Family Branch will cooperate together with all governmental departments, public and private agencies, law enforcement and schools to provide quality and accessible services to the families in St. Joseph County, Michigan.

## **Current Staff**

David C. Tomlinson – Presiding Judge of the Juvenile Division

Kevin Kane – Juvenile Court Director/Referee

Tom Robertson – Caseworker Supervisor/Referee

Collin Cummings – Intensive Probation Officer

Justin Koenig – RTA/Probation Officer

Sydney Herman – Probation Officer

Bryanna Bradford – Probation Officer

Julie Hakeos – Juvenile Register

Jenny Walden – Juvenile Deputy Register/ARC Case Aide

Amy Shugars – Juvenile Deputy Register

Sharon Willey – Bookkeeper

Juvenile Day Treatment (JDT) Supervisor - Sakina Duncombe

JDT Assistant Supervisor – Rose Isabel

JDT Monitors –Cindy Castellanos, Gloria Tate, two vacant positions

RDSS – Richard Metty & Jackie Perry

## **For 2022 Annual Report Juvenile Division of Family Court**

This is my fifth annual report and the fourth report based on statistics that were compiled mostly on cases occurring during my four years on the bench.

The cases have become more difficult, dealing with issues of drug and alcohol abuse, possible mental illness, parents with a lack of parenting skills, and trauma suffered by children who have been adopted or placed in foster homes after abuse/neglect in their primary home.

Detention days we utilized were 440 days in 2022 which came to approximately \$83,319. The equivalent of 30 juveniles being in detention for an entire year. Like last year and years prior, much of the detention resulted once again from delinquents already on probation, repeatedly violating their probationary orders. The long-term treatment of CSC offenders has also played a part.

The Court believes violators of probation must be dealt with by immediate consequences. We live in a small community and word of the Court's actions or lack thereof quickly spreads.

We have continued to decrease usage of Detention Facilities. Pre-covid there was a substantial decrease in the utilization of detention services with a big change in philosophy. With Covid and its aftermath, there has been even less usage of Detention Facilities due to a statewide shortage of employees. In 2022, it was budget \$199,000 for Detention.

We continue to use the Juvenile Day Treatment Program (JDT). In my opinion, this is an effective program that deals with a limited number of children at a time. We have some devoted employees who try very hard to help the children who attend the program. We operate a credit recovery program at JDT. This is a good program to assist our juveniles to catch up closer to where they should be scholastically, with a view toward assisting as many juveniles as possible to complete the requirements to graduate from high school. We also offer the students life skills training such as cooking and preserving food from the fields to the table. We also emphasize empathy for others who are less fortunate so that our students visit people in nursing homes and help with very delayed and impaired children at Pathfinders Center.

The Court has continued to partner with the ISD, the Sheriff's Department and the Prosecuting Attorney's Office to work on the issue of school truancy. I expect there to be statewide legislation passed this year to spell out in detail how truancy cases will be dealt with uniformly across the state. Of course, I thought that would happen last year and the year before, but it did not.

Cases of abuse and neglect of children continue to be a large part of the Court's docket. The statistics show 33 petitions were filed in 2022 which is down from previous years, due in

large to the Covid aftermath. The Court is very wary as to the drastic consequences and changes the Department of Health and Human Services has had to endure in the past few years. The unreported, uninvestigated situations in this county is a major concern for the residents of St. Joseph County in the coming future. Methamphetamine use and production continues to be a scourge on the families in St. Joseph County. Law enforcement, the Prosecuting Attorneys, and my fellow Judges are in full agreement with this statement, and we will continue to work together to help our children caught in the middle of this continuing nightmare. In addition, we are now seeing heroin use appearing on the rise.

The past and current support of the County is greatly appreciated, and I look forward to continuing a good working relationship in the future.

Respectfully submitted,

Kevin M. Kane  
Juvenile Director

## Youth Programs and Services

All In-Home Services components are reimbursable to the County from the State, at a rate of 50%. The philosophy of using in-home services is to keep the child in the home instead of using out of home placement. Using in-home services allows the Court to prevent removal from the home, or if a child is placed outside the home, it expedites placement back to the home. The in-home services have been extremely effective in cutting down recidivism by youthful offenders.

History has shown that delinquency is not exclusively a child specific issue, but also a family issue, which could range from inability to adequately parent the child to not being able to pay for required medications. The in-home care components, such as parenting classes and emergency needs, allows the Court to assist the families in overcoming these barriers, thereby taking the stress off the families, and helping them to concentrate on other issues.

**Adolescents Recovery Court (ARC)** – 2021 was the first full year of this program. During this year we had 6 juveniles pass through. This program is a 12-month program and on average could be up to a year and a half. This program is very intensive with weekly hearings in a wraparound environment which challenges the juveniles and parents. It encourages and promotes mental health services. This program involves CMH, ISD, Prosecutor's Office, a Defense attorney, and Juvenile Court Staff. The ARC program is in its infancy and four of our juveniles were discharged unsuccessfully either for moving out of jurisdiction or not a good fit. There have been two graduates from this program which we are very proud of and continue to support even after our jurisdiction ended. Currently, in 2022 we have five juveniles.

**Juvenile Day Treatment (JDT)** – Educational instruction is provided from 8:00 am to 2:30 pm. The afternoon portion (until 4:00 pm) focuses on treating not only the youth through a variety of therapeutic services but helping parents better understand why their youth got into trouble and how they can become more effective parents. The results have been outstanding since the program started in 1999 and a great savings to the County for youth who could have been institutionalized. In 2021, even with the Covid pandemic, we have an average of nine juveniles go through the program. Most of these kids loved the smaller and therapeutic setting compared to the schools in which they came from. The biggest task for this Court and JDT is to reintegrate juveniles back into the public school to make sure that transition is successful.

**Community Service** – Provides a consequence to youth and enforces a work ethic in them. Youth take pride in their accomplishments and at the same time repay society. Community Service has been a valuable and effective tool for the Court.

**Peer Plus** – Is a group interaction program for teens. It is designed to emphasize the strengths and potential of the participants through a positive group environment. The goals of peer plus include reaching a greater understanding of self and others, acquiring more effective communication skills and learning ways to deal with stress and substance abuse issues.

**Adolescent Drug Education Program** – This program is designed for youth who have experimented with substances. The main objective of this course is to educate adolescents on

the harmful effects of drug usage and to encourage them to find activities besides the use of drugs. Many times, the result is a referral to more substance abuse therapy.

**Family Services** – Resource Families Support Services is a program that was implemented in 2010 to provide support within the community to foster care families. The objective is to expedite permanency for children in foster care, minimize emotional trauma to children taken out of the home, and ensure timely reunification to families that are or may come under Court jurisdiction. Revision of this program will be examined this year to ascertain that the object of the existence of the program remains consistent of its stated goals.

**CASA – Court Appointed Special Advocates**, provides highly trained community volunteers to advocate for the BEST INTERESTS of abused and neglected children in foster care. CASA Volunteers investigate the facts of the child's situation, they learn everything they can from everyone in the child's life. They communicate and share information with the children's foster care workers, their attorneys, and the Court. They look for resources in the community and advocate in the Courtroom to make sure that the child's voice is heard.

**Regional Detention Support Services** – The purpose of RDSS is to provide alternatives to jail and detention for juvenile offenders who have been detained and are awaiting a hearing and/or placement. RDSS is funded by a state grant. Money utilized is for holdover costs, in-home detention and transports to/from detention facilities. The State provides the training for these workers.

**Holdover Site** – Used primarily for delinquent youth who are arrested and cannot be returned home until a detention hearing is held with a Referee. The holdover site has been an asset to the Court for over 30 years. The site is at the Sheriff's Department and by law has no locks on the door. The juveniles are under constant adult supervision of trained personnel.

**CSC Offender Counseling** – Once a youth has been adjudicated for a sexual offense, an assessment will be done to determine the need and extent of treatment. If treatment/therapy is indicated then usually one-on-one services with a therapist begins, however there is also a group component. Reports by the therapist will show progress or lack thereof. Any violation or lack of effort on the part of the youth will be brought before the Court for further hearing.

**Anger Management** – Both individually and in a group setting, youths are taught effective means for dealing with their anger that may be exhibited in their offense or dealing with people in the home, school or community. This is especially useful at JDT and even consent youth to teach new ways to look at their behavior.

**GPS Tether** - This year we have utilized GPS tethers in a greater capacity than years past. This is partly due to the inability to use detention facilities and partly a change in philosophy. When attached to the juvenile's ankle it allows case workers to track their location to ensure they are complying with the rules of probation. The tether reports include maps of their travels, can be accessed from case worker's computers at work or at home. This service is paid for by the State of Michigan.

**In-Home Detention** – The purpose of this program is to provide intensive supervision of youths either in their home or in foster care, that are identified by the Court as high risk of eventual

institutionalization, if intensive supervision is not utilized. The in-home workers are not caseworkers, but are people trained by the Court and are matched with each youth on a case-by-case basis. They contact the youth at least once daily during the school week, or as agreed upon with the referee and caseworker, to assure compliance and to talk with the youth and the family. The in-home worker keeps in contact with the youth's regular caseworker and reports any problems, needs or violations of the youth. As the youth progresses during in-home detention, the frequency of intensive supervision lessens, depending on the circumstances of the case and how the youth is doing.

**RTA – Raise the Age** – was in full swing in 2021. The Juvenile Court assigned a raise the age probation officer and allowed the county to take advantage of a full reimbursement for that position from the State. Raise the Age also created an increased workload in Juvenile Court as tickets for defendants under 18 are now the jurisdiction of Juvenile Court due to law changes. This will be seen in 2022.

## **Out of County Detention Facilities**

Without having our own detention facility for juveniles. We rely on other counties or agencies to provide the facilities when it becomes necessary to remove a delinquent youth from their home. They must be removed not only for criminal behavior to protect themselves and society, but it is also used as a consequence for probation violations. Long term treatment after a formal adjudication is also sometimes necessary. Detention costs range from \$200.00 to \$300.00 per day, or more depending on the facility and type of treatment. This past year has been challenging for finding detention facilities, respite placement, etc. due to the aftermath of the Covid pandemic. The current situation is that most facilities will only take their own county's juveniles. Across the State there is a staffing shortage and not a bed shortage.
