In accordance with the amendments ratified in March 2023 to the Natural Resources and Environmental Protection Act, 1994 PA 451, this is to notify you that the St. Joseph County Board of Commissioners has submitted a notice of intent to the Michigan Department of Environment, Great Lakes, and Energy. With this submission, the St. Joseph County Board of Commissioners accepts the role of County Approval Agency for the County's forthcoming Materials Management Plan, which will replace our existing solid waste management plan.

Later in the process, we will make copies of the proposed Materials Management Plan available to the public by publishing where the copies can be accessed. Moreover, we will seek public comment through a public hearing, for which a notice will be published in advance. We look forward to receiving your input on the new Materials Management Plan.
