## 2009 MILLAGE RATES

**HOW TO USE THE MILLAGE RATE CHARTS**

1. Select the township or city in which the parcel is located. If the parcel is within a village, use the village column to locate the proper village.
2. Next, choose the school district in which the parcel is located. NOTE: Parcels which are considered split district properties (parcels which were transferred from another school district and carry the previous district's debt levy) are not included on the millage charts. Contact the *St. Joseph County Land Resource Centre* for specific applicable millages for these properties.
3. Choose the proper rate from either the homestead or nonhomestead column, depending on the property's homestead status. Multiply the parcel's taxable value by the applicable millage rate, divide by 1000.
